

ATLANTA EMA QUALITY MANAGEMENT STANDARDS AND MEASURES

NON-MEDICAL CASE MANAGEMENT

Purpose

The purpose of the Ryan White Part A quality management standards and measures is to ensure that a uniformity of service exists in the Atlanta Eligible Metropolitan Area (EMA) such that the consumers of a service receive the same quality of service regardless of where the service is rendered.

Definitions

Non-Medical Case Management Services (NMCM) provide guidance and assistance in accessing medical, social, community, legal, financial, and other needed services. Non-Medical Case Management Services may also include assisting eligible clients to obtain access to other public and private programs for which they may be eligible, such as Medicaid, Medicare Part D, State Pharmacy Assistance Programs, Pharmaceutical Manufacturer's Patient Assistance Programs, other state or local health care and supportive services, or health insurance Marketplace plans. Additional services include transitional case management for incarcerated persons as they prepare to exit the correctional system.

Non-Medical Case Management is also a range of client-centered services that link clients with health care, psychosocial, and other services. However, the focus is not on adherence or following up specifically on medical treatments. Key activities include:

- Initial assessment of service needs
- Development of a comprehensive, individualized care plan
- Continuous client monitoring to assess the efficacy of the care plan
- Re-evaluation of the care plan at least every 6 months with adaptations as necessary
- Ongoing assessment of the client's and other key family members' needs and personal support systems

Non-Medical Case Management includes several methods of communication including face-to-face, phone contact, and any other forms of communication deemed appropriate by the Ryan White HIV/AIDS Program (RWHAP) Part A recipient. Non-Medical Case Management Services have as their objective providing guidance and assistance in improving access to needed services whereas Medical Case Management services have as their objective improving health care outcomes.

Non-Medical Case Management Services must be provided by a qualified professional with a high school diploma or equivalent. Non-Medical Case Managers or Providers of Non-Medical Case Management services must also have 1-2 years experience in the field of social services or similar field.

Standards Development Process

The standards were developed through extensive background research on quality management standards, a review of existing standards from other Ryan White Part A EMAs, meetings of the Case Management Task Force and meetings with the Ryan White HIV/AIDS Program (RWHAP) Part A recipient.

ATLANTA EMA QUALITY MANAGEMENT STANDARDS AND MEASURES NON-MEDICAL CASE MANAGEMENT

Application of Standards

These standards apply to any agency receiving Part A funds to provide Non-Medical Case Management services. If an agency is unable to meet a particular standard, the agency must document why the standard was unable to be met and explain in quarterly reports the steps it is taking to meet that standard.

Mental Health, Substance Abuse, Case Management, and Legal Standardized Screening Questions

The screening process includes standardized Case Management, Mental Health,-Substance Abuse, and Legal questions that all agencies must use if receiving Part A funds to provide Outpatient Ambulatory Health Services, Substance Abuse, Mental Health or Case Management (medical or non-medical) services. The purpose of the questions is to provide a uniform way to identify consumers who need an assessment conducted. Given this standardized approach, clients will receive the same follow-up for assessment, treatment and/or referrals based on their responses, regardless of the agency. Please note that agencies may decide to add more questions to their screening tool; however, the questions listed in these standards must be asked first before an agency's additional questions.

Grievance Process

If a grievance is filed after the screening process and it is unable to be resolved by the agency grievance person, the client shall receive an assessment, not a second screening. If a grievance is filed after the assessment process and it is unable to be resolved by the agency grievance person, the client shall receive a second assessment completed by a different Non-Medical Case Manager or Provider of Non-Medical Case Management.

Acknowledgements

Fulton County would like to thank all of the EMAs that shared their standards, as well as the members of the Case Management Task Force who gave generously of their time to provide valuable input to the development of these quality management standards and measures.

**ATLANTA EMA QUALITY MANAGEMENT STANDARDS AND MEASURES
NON-MEDICAL CASE MANAGEMENT**
